

Content Partnership Proposal

Prepared for [CLIENT_NAME] | [DATE]

The Challenge

[CLIENT_NAME] is growing fast, but your content can't keep up. You need more emails, better landing pages, sharper ad copy, and a consistent brand voice across every channel. Hiring a full-time copywriter is expensive and slow. Traditional agencies charge too much and move too slowly.

You need a content engine that scales with you.

The Solution

CopyDTC is an AI-powered content agency built for DTC brands like yours. We combine the strategic thinking of a senior copywriter with the speed and consistency of AI to deliver conversion-focused content at scale.

What You Get	How It Works
Brand Voice Bible	We build a complete voice profile so every piece of content sounds like your brand
Production-ready content	Emails, landing pages, ads, blog posts, product descriptions, social media
Fast turnaround	1-3 business day delivery depending on your tier
Built-in quality control	Every deliverable reviewed against your brand voice before delivery
Monthly performance reports	Track what's working and optimize over time

- **Email flows:** [Specific finding about their email sequences, open rates, missing flows]
- **Landing pages:** [Specific finding about conversion, copy, structure]
- **Ad copy:** [Specific finding about their ads, hooks, CTAs]
- **Website copy:** [Specific finding about homepage, product pages, about page]
